Fabian Park

Full-Stack Developer

I am a passionate full-stack developer with professional work experience in various fields which enhance my ability to contribute effectively in the next big thing!

Projects

SR

([HTTPS://SR-HEGC.ONRENDER.COM/](https://sr-hegc.onrender.com/))

SR is a dynamic MERN full-stack app that enables English-speaking foreigners to explore diverse restaurants in Suwon, Korea, and access information about them.

Key Features:

- Registered users can suggest which restaurants to add/update/delete to the admin
- Collected real-time data using Python and stored it in MongoDB to provide the latest information

NC

(<https://teal-stardight-5a49a5.netlify.app/>)

NC is a React movie app that utilizes the data from The Movie Database (TMDb).

Key Features:

- Displays the upcoming releases, popular choices, and top-rated films, ensuring users stay in the loop with the latest in cinema.
- Users can select a movie of their interest to find related the overview and release date of the movie
